DUTIES OF A COUNTY-WIDE 4-H PROJECT LEADER

The 4-H Project Leader works with the County Agents to further encourage the learning of life skills and experiential learning. The project leader keeps the Agents informed of the activities of the project group.

This is accomplished by:

- Assisting with enrollment, interpreting the project to potential members.
- Helping members establish goals and plan for their project work.
- Giving individual support as needed to project members.
- Planning a sequence of learning experiences so that the project appeals to beginners and more advanced learners.
- Conducting a minimum of 6 hrs of instruction or 4-6 project meetings, workshops, tours or field trips.
- Involving experienced junior/teen leaders in teaching. Encouraging parents/guardians to provide appropriate project support at home.
- Working with members with regard to records, demonstrations, exhibits or other project-related activities.
- Encouraging members to complete project work as planned. Helping members evaluate their progress in project area.
- Providing recognition for the accomplishments of each member. Participating in project volunteer training offered by county, section or state.
- Helping project members know the requirements for exhibiting. Supporting project members as they prepare their exhibit.
- Working with the Agents to make arrangements for a 4-H'er to attend county, sectional, or state events.

I have read the above responsibilities and agree to serving as a county-wide 4-H project leader. Once VIP certified, names of 4-H members in project area will be given so you can begin your project learning experiences.
